Help, students cannot see and/or enroll for my course!

This Quick Reference Guide explains how you can make your course available for students. In order to open the course for students, you have to be enrolled as an instructor in the course.

To open the course to students you have to change the availability of your course.

To change the availability of your course, please take the following steps:

1. Open the course

Navigate to Control Panel > Customisation > Properties.

2. Set availability

Under this header you see the options “Yes” and “No”. Please select “Yes” and click the submit button.

The course is now available to students.

Do you need assistance of have Blackboard related questions, do not hesitate to contact ICTO FSW at ICTO@fsw.leidenuniv.nl.
