Webdav SURFdrive mount

- Then go to your “Personal” page. You can do this by clicking on your name at the top right hand side corner. A menu appears with the “Personal” item. Click on “Personal”.

- Having done this you see a webpage with the following section displaying the URL to use and your username.

WebDAV

To access your files through WebDAV, please use the following URL:
<https://surfdrive.surf.nl/files/remote.php/nonshib-webdav/>

Credentials

For WebDAV, you must use separate credentials. Please use the following:

Username: @umail.leidenuniv.nl

Password:

Note: after generating, the password is visible only once!

Webdav SURFdrive mount

- ➔ Click on the “Generate password” and a 12-character password will become visible

Credentials

For WebDAV, you must use separate credentials. Please use the following:

Username: ron.trompert@surf.nl

Password: O3Vi ptpl HOWN

Generate password

Note: after generating, the password is visible only once!

Revoke credentials

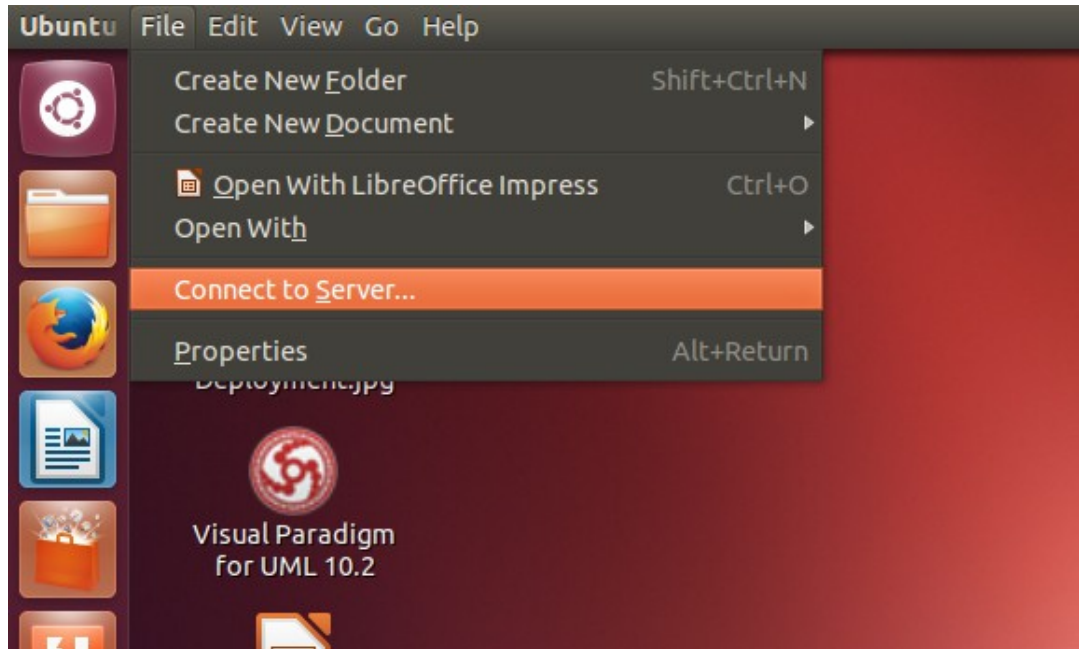

Note: after revoking, accessing your files through WebDav is no longer possible (until you generate new credentials again).

Forgot your password? Generate a new one. There is no way to retrieve the current password.

- **Please, save this password because it will be shown to you only once.**

Webdav SURFdrive mount

- Go to the desktop (CTRL + Super key + D), start the Connect to Server dialog, located in the File menu (top left corner)
