COURSE AND EXAMINATION REGULATIONS

Valid from 1 September 2016

Bachelor’s programme Psychology

These course and examination regulations have been drawn up in accordance with the Higher Education and Research Act (henceforth: the Act) and the following Leiden University regulations:

- the Regulation on the Binding Study Advice
- the Leiden Register of Study Programmes Framework Document
- the Academic Calendar
- the Regulations for Student Registration, Tuition Fees and Examination Fees

Pursuant to Article 7.14 of the Act, the Faculty Board regularly evaluates the Course and Examination Regulations (henceforth the OER) and considers, for the purpose of monitoring and adjusting the study load, how much time it takes students to comply with them. In accordance with Article 9.18 of the Act, the departmental committee is assigned the task of annually assessing the implementation of the OER.

- Appendix 4: The Pre-Master’s Programme
- Appendix 5: Transitional Provisions
Chapter 1 General Provisions

Article 1.1 Scope of the regulations

These regulations apply to the teaching and examinations in the Bachelor's programme Psychology, henceforth referred to as the programme.

The programme is instituted in the Faculty of Social and Behavioural Sciences of Leiden University, henceforth referred to as the Faculty, and is taught in Leiden by the Institute of Psychology.

Article 1.2 Definitions

In these regulations the following definitions apply:

a. the Act: the Higher Education and Research Act [Wet op het hoger onderwijs en wetenschappelijk onderzoek] (WHW);

b. Board of Examiners: the Board of Examiners for the programme, established and appointed in accordance with Article 7.12a of the Act;

c. component: a unit of study in the programme, as defined in Article 7.3 of the Act. The study load of each component is expressed in whole credits. Each component is associated with an examination;

d. credit: the unit expressing the study load of a component. According to the ECTS, one credit equals 28 hours of study;

e. degree classification: further degree classification by the Board of Examiners;

f. ECTS: the European Credit Transfer System;

g. e-Prospectus: the electronic prospectus containing specific and binding information about the programme. The e-Prospectus is included as an attachment to these regulations;

h. examination: an inspection of the knowledge, understanding and skills of the student with respect to a particular component, and an assessment thereof (in accordance with Article 7.10 of the Act) by at least one examiner appointed for this purpose by the Board of Examiners. An examination may consist of several constituent examinations;

i. examiner: the person appointed by the Board of Examiners to conduct examinations, in accordance with Article 7.12c of the Act;

j. final examination: the examinations associated with the components belonging to the programme or the propaedeuse, including a review to be carried out by the Board of Examiners, as referred to in article 7.10, second paragraph, of the Act;
k. Leiden Register of Study Programmes: register of the programmes offered by Leiden University,¹ maintained under the supervision of the Executive Board, as referred to in Article 7 of the Executive and Management Regulation;

l. level: the level of a component according to the abstract structure as defined in the Leiden Register of Study Programmes Framework Document;

m. nominal duration of study: the study load in years of study as established in the Central Register of Higher Education Programmes;

n. portfolio: a monitoring and assessment file that makes it possible for students to (1) demonstrate that they have attained a sufficient level of academic education to be awarded the degree; (2) record their personal process of academic learning during the programme; and (3) receive appropriate supervision and study advice;

o. practical: a practical assignment that contributes to an examination or final examination, as referred to in Article 7.13, second paragraph, in point (d), of the Act, that takes one of the following forms:

- writing a thesis/final paper/final report,
- writing a paper or creating an artistic work,
- carrying out a research assignment,
- participating in fieldwork or an excursion,
- completing an internship, or
- participating in another educational activity aimed at acquiring particular skills;

p. Pre-University College: a teaching programme offered by Leiden University to selected pupils in the fifth and sixth grades of secondary education (vwo);

q. programme: the programme to which the OER relate: a coherent set of components aimed at achieving clearly defined objectives relating to the knowledge, understanding and skills that a graduate of the programme is expected to have acquired. Each programme is associated with a final examination;

r. propaedeuse: the first year of the programme and the part of the programme defined in Article 7.8 of the Act;

s. second reader/supervisor: the second examiner to read and assess the thesis/final paper/final report;

t. student: person enrolled at Leiden University in order to follow the courses and/or sit the examinations and final examinations associated with the programme;

u. working day: Monday to Friday, excluding the official public holidays.

¹The Leiden Register of Study Programmes Framework Document
The other definitions have the meaning that the Act ascribes them.

Article 1.3 Codes of conduct

1.3.1 The Leiden University Code of Conduct on Standards of Behaviour between Lecturers and Students\(^2\) is applicable. The aim of this code is to create a framework for a good, safe and stimulating work and study environment within Leiden University, in which lecturers and students respect to each other and in which mutual acceptance and trust are important values.

1.3.2. The Leiden University Regulations on ICT and Internet Use\(^3\) are also applicable. These regulations define what is considered appropriate use of ICT and internet and how usage checks will be made. They also explain which conduct is not tolerated and the consequences that apply.

Chapter 2 Description of the Programme

Article 2.1 Objectives of the programme

The programme has the following objectives:

a. to gain knowledge, skills and understanding of the field of psychology (art. 2.3);

b. academic training (art. 2.3);

c. preparation for further studies; in particular master’s level education in psychology (art. 2.3);

d. a certain degree of preparation for a career in the field (art. 2.3).

Article 2.2 Specialisations

Not applicable.

Article 2.3 Learning outcomes

Graduates of the programme have attained the following learning outcomes, listed according to the Dublin descriptors:

a. Knowledge and understanding

The student:

- Has a general understanding and orientation of psychology and its sub-disciplines, including its global historical and philosophical background and the foundations of the profession;

- Has knowledge of the methods and techniques used in psychological research.

b. Applying knowledge and understanding

The student:

- Is able to analyse and conceptualise problems and to report findings in writing and verbally both to fellow scientists and the broader public;

\(^2\) Regulations of University Leiden

\(^3\) The Leiden University Regulations on ICT and Internet Use.html
• Is able to set up, conduct and report on simple psychological research;
• Is able to understand and assess medium-level psychological research and literature; and is knowledgeable about the research methods and technical skills commonly used at this level;
• Has knowledge of and is able to apply the methods and techniques used in psychological research.

c. Judgement

The student:
• Is aware of the ethical practices in thinking and acting which are part of a scientific attitude and has knowledge of the specific ethical practices in thinking and acting current in the field of psychology.

d. Communication

The student:
• can clearly formulate his/her analyses and recommendations for colleagues in the field and a wider public (including potential clients);
• is able to present both in writing and verbally at an academic level.

e. Learning skills

The student possesses the following skills:
• Study skills: systematic approach to studies, usage of computer based technology, proficiency in English, studying of texts;
• Academic skills: is capable of analysis, conceptualisation, reasoning; is able to formulate problems and (help) find solutions; is able to set up, conduct, report, and assess (simple) research; is able to systematically search and select literature; is able to judge his or her own research as well as the research of others; is able to reflect on the profession and work of practitioners;
• General professional skills: is able to discuss, come up with arguments; work in a team; carry out project-based work; is observant; is able to conduct interviews.

Article 2.4 Structure of the programme

There are two versions of the programme. The Dutch version is offered both in a full-time and a part-time format. The full-time programme is offered during the day time, and in exceptional cases in the evening. The part-time programme is offered during the daytime with the exception of compulsory components. These are offered in the evening. Examinations can be held in daytime or in the evening.

The international version of the bachelor’s programme Psychology (IBP) is offered in a full-time format only. All programme parts are offered in the daytime.

The nominal duration of the full-time programme is three years and that of the part-time programme is five years.
Article 2.5  **Study load**

The programme has a study load of 180 ECTS credits. The propaedeuse has a study load of 60 credits and forms an integral part of the programme.

Article 2.6  **Start of the programme; uniform structure of the academic year**

The programme starts on 1 September. In terms of regular courses, the programme is based on the university semester system and comprises 42 teaching weeks.

Article 2.7  **Minors**

2.7.1 The following minors, which fall under the responsibility of the Psychology Board of Examiners, are offered for non-Psychology students:

   a. Mind and Brain
   b. Group Dynamics and Decision Making
   c. Psychology of Health and Illness
   d. Development: from Infant to Adolescent
   e. Psychology: a comprehensive introduction

Also accessible for Psychology students is the interdisciplinary minor *Brain and Cognition*. The courses of this interdisciplinary minor fall under the responsibility of the different Boards of Examiners of the faculties participating in the minor.

2.7.2 The description of the components belonging to a particular minor can be found in the e-Prospectus. The e-Prospectus also specifies which Board of Examiners is authorised to examine the individual components that comprise the minor.

2.7.3 The educational minors are the responsibility of the ICLON Board of Examiners.

2.7.4 Components that are offered in the context of the Honours tracks are the responsibility of the Honours Academy Board of Examiners.

Article 2.8  **Final examinations in the programme**

2.8.1 The following final examination can be taken within the programme:

   a. the final examination for the bachelor’s degree programme

Article 2.9  **Language of instruction**

In line with the Code of Conduct on the Language of Instruction\(^4\) the languages of instruction and examination in the programme are Dutch and English. Students are expected to have an adequate command of the language(s) of instruction and examination of the programme, in accordance with the requirements stated in article 5.2.4. As appropriate, the faculty publishes OER in English for English-taught programmes.

\(^4\) The Code of Conduct on the Language of Instruction was adopted by the Executive Board on 28 May 2013
Article 2.10 Quality

The programme is accredited by NVAO\(^5\) and meets the national and international quality requirements for degree programmes. The programme’s teaching also meets the quality standards set out in the Leiden Register of Study Programmes Framework Document.

Chapter 3 Curriculum

Article 3.1 Compulsory components

3.1.1 The programme includes compulsory components worth a total study load of 150 credits. These compulsory components are listed in appendix 1. For each component, the study load (in credits) and level are listed. The predetermined set of ‘optional’ courses from which a student is obliged to choose a certain number form part of these components. At least three of these optional courses within psychology must be taken at 400 level. These courses are referred to as specialisation course (see appendix 1). These courses may have prerequisite requirements as mentioned in article 4.2. Students can replace 1 specialisation course by 2 optional courses of 5 credits each offered by the section Methodology and Statistics (see appendix 1.2.c).

3.1.2 The e-Prospectus further specifies the actual structure of the programme, i.e. the study load, level, contents and structure of the components on the curriculum.

Article 3.2 Optional components

3.2.1 In addition to the components referred to in 3.1.1, students select components from those on offer worth a total study load of 30 credits, of which at least 5 credits must be earned on level 300 or higher. Students may choose optional components worth 30 credits. Students may only follow these components once they have completed the propaedeuse.

3.2.2 The Board of Examiners must approve the student’s selection of components. The Board or Examiners bases its evaluation of the student’s selection solely on the coherence and level of the components selected. The approval of the Board of Examiners is not required for minor programmes with a study load of 30 credits that are recognised as such by Leiden University nor for the minors recognised by Delft University of Technology and Erasmus University Rotterdam.

3.2.3 In addition to the components taught at this university, and subject to the approval of the Board of Examiners, student may select components offered by other Dutch or foreign universities, or components offered by another legal entity offering accredited undergraduate higher education programmes.

3.2.4 Students may not use components that they follow within the scope of the Honours College as optional components.

3.2.5 Students who are enrolled in the programme can assemble their own programme of components that are taught by the institution as long as a final examination is associated with these. They will require the permission of the most appropriate Board of Examiners. When granting such

---

\(^{5}\) The Accreditation Organisation of the Netherlands and Flanders

\(^{6}\) In accordance with the ‘abstract structure’, as referred to in the Leiden Register of Study Programmes Framework Document.
permission, the Board of Examiners also indicates to which University programme the programme is considered to belong. If necessary, the Executive Board appoints a Board of Examiners to take this decision.

3.2.6 Contrary to Article 3.2.2, students may not choose the following minor programmes at Leiden University, Delft University of Technology or Erasmus University Rotterdam because their content is similar, fully or in part, to compulsory components in the programme:

   a. Mind and Brain
   b. Group Dynamics and Decision Making
   c. Psychology of Health and Illness
   d. Development: from Infant to Adolescent
   e. Psychology: a comprehensive introduction

One of the courses in the following minor has too much of an overlap with compulsory components of the programme. This course will not be considered part of obligatory credits.

   f. Second Language Acquisition

Article 3.3 Practical

3.3.1 For each component, the e-Prospectus specifies which practicals are included, the nature and scope of the student’s workload for these practicals and whether participation in these is a condition of entry to the examination for the component. The Board of Examiners may grant a student exemption from a practical, in which case the Board may choose to apply alternative conditions.

3.3.2 The e-Prospectus specifies the scope and study load of the final assignment/thesis/final report, and the requirements that the final assignment/thesis/final report must meet.

Article 3.4 Allocation to components

Students are allocated to components in order of registration, on the provision that students who are enrolled in a programme are guaranteed access to the components that are obligatory to the programme and when registered before the deadline. Students may only take certain components once they have passed the examination of a preceding component. The programme-specific section of the OER or the e-Prospectus specifies the components to which this condition applies.

Article 3.5 Distribution of study materials

3.5.1 Students are not permitted to make audio or video recordings of lectures without the explicit prior permission of the relevant lecturer. Should such permission be granted, students are only legally permitted to use the recording for their own use; all forms of distribution or publication of the recordings are prohibited.

3.5.2 Students are prohibited from all forms of distribution or publication of study materials. The materials are for students’ own use only.

\*\*\* In accordance with Section 7.3d of the Act (‘Individual curriculum in higher education’).
Chapter 4  Examinations and Final Examinations

Article 4.1  Frequency of examinations

4.1.1 Examinations are held twice during the academic year for each component offered in that year. The Board of Examiners determines the manner of the resit for practicals.

4.1.2 If a component comprises a practical, students may only sit the examination as referred to in paragraph 4.1.1 if they have passed the practical, unless the Board of Examiners decides otherwise.

4.1.3 If the mark for a component comprises the results from several constituent examination, it is possible to depart from the number of examinations and resits referred to in 4.1.1, on the condition that the student is at least given the opportunity to pass the component in a resit that is representative of this component. If this is applicable, this is stated in the e-Prospectus.

4.1.4 In accordance with Article 7.13, second paragraph under (h) of the Act, the e-Prospectus specifies the dates of the examinations.

4.1.5 Certain conditions, which are set by the Board of Examiners, may apply to examination resits. These conditions are specified in the Rules and Regulations of the Board of Examiners.

4.1.6 Contrary to the provisions of Article 4.1 and at a student’s request, the Board of Examiners may in exceptional circumstances allow an additional resit, upon the advice of the study advisor.

4.1.7 If a student has passed an examination linked to a given component but nevertheless resits this examination without the permission of the Board of Examiners the result of the last sitting will not be assessed.

Article 4.2  Obligatory sequence

4.2.1 The following components can only be followed after the examination of the components mentioned below have been successfully completed:

- The Adolescent Brain: after completing Developmental and Educational Psychology
- Attention: after completing Cognitive Psychology
- Pharmacological and Biological Approaches to Clinical and Health Psychology: after completing Personality, Clinical and Health Psychology (PCH)
- Causal Inference in Field Experiments: after completing Psychometrics and Multivariate Data Analysis
- Cross-cultural psychology of Health and Illness: after completing PCH
- Culture and Diversity at Work: after completing Group Dynamics
- Emotion and Cognition: after completing Cognitive Psychology
- Multivariate Data Analysis: after completing Introduction to Research Methods and Statistics and Inferential Statistics
- Artificial Intelligence and Neurocognition: after completing Introduction to Psychology and Cognitive Psychology or Consciousness
- Psychological and Neurobiological consequences of Child Abuse: after completing prapedeuse
- Psychotherapy: Theory, Research and Practice: after completing PCH
- Psychology of Advertising: after completing Social and Organisational Psychology
• Psychometrics: after completing a methodology and statistics course from the first year
• Sexology: after completing PCH
• Bachelor project: after completing Multivariate Data Analysis

The specialisation courses can only be followed after the first year (propaedeuse) has been successfully completed:

• Applied Cognitive Psychology
• Cognitive Neuroscience
• Health and Medical Psychology
• Clinical Neuropsychology
• Clinical Child and Adolescent Psychology
• School Psychology
• Economic and Consumer Psychology
• Social Psychology in Organisations

4.2.2 For the components and their attendant examinations which must be completed in a given sequence, the Board of Examiners may in special cases, and following a substantiated written request by the student, agree to an alternative sequence.

Article 4.3 Form of examination

4.3.1 The e-Prospectus states whether an examination or the constituent examinations for a component will take the form of a written, oral or other examination.

4.3.2 Students with a disability or chronic medical condition are given the opportunity to apply for individual examination arrangements adjusted to their particular disability or condition. These arrangements may not affect the quality or level of difficulty of the examination. If necessary, the Board of Examiners seeks expert advice, as referred to in the Protocol on Studying with a Disability, before reaching a decision.

4.3.3 In special cases, the Board of Examiners may, at the request of the student and within the scope of the OER, permit a student to sit an examination in another manner than specified in the e-Prospectus.

4.3.4 Examinations are held in the language(s) of instruction for this programme that are specified in the OER. At the request of the student, the Board of Examiners may permit him or her to sit an examination in another language.

Article 4.4 Oral examinations

4.4.1 Students take oral examinations individually, unless the Board of Examiners decides otherwise.

4.4.2 Oral examinations are public, unless the Board of Examiners or the examiner concerned decides otherwise owing to special circumstances, or unless the student objects.
Article 4.5  Rules set by the Board of Examiners

4.5.1 In accordance with Article 7.12b, third paragraph, of the Act, the Board of Examiners establishes rules concerning the performance of its tasks and responsibilities and the measures it can take in this respect.

4.5.2 The Board of Examiners must guarantee that students are entitled to appeal against decisions of the Board of Examiners or the examiners.

Article 4.6  Assessment

4.6.1 The examiner determines the mark immediately after an oral examination has been conducted. The student is informed of this through the University study progress system.

4.6.2 The examiner marks any written examination or constituent examination within 15 working days of the day on which the examination or constituent examination was taken, and provides the departmental office with the information necessary to provide the student with electronic notification of the examination results. The student is informed of this through the University study progress system.

4.6.3 If the examiner is unable to comply with the period of 15 working days specified in article 4.6.2, the student is notified accordingly within the specified term. The student is also informed of the relevant procedure in such cases.

4.6.4 The examination result will be expressed as a whole number or a number to a maximum of one decimal place up to and including 1.0 and 10.0. The result will not be expressed as a number between 5.0 and 6.0.

4.6.5 The examination result is considered to be a pass if it is 6.0 or higher.

4.6.6 If students have to complete a practical in order to be permitted to sit an examination, the Board of Examiners may decide that they have passed the examination once they have successfully completed the practical.

4.6.7 Together with the written or electronic notification of examination results, students are also informed of their right to inspect their marked examination papers, as referred to in Article 4.8, as well as of the appeals procedure.

4.6.8 The Board of Examiners may draw up regulations that specify the conditions under which it may exercise its authority as specified in Article 7.12b, third paragraph, of the Act to determine whether every examination needs to be passed and/or under what conditions the results of constituent examinations can compensate for one another. These regulations are included in the Rules and Regulations of the Board of Examiners.

Article 4.7  Validity of results

4.7.1 Every examination and exemption granted in the programme is valid for four years. Examinations and exemptions granted in the part-time programmes are valid for six years.
4.7.2 The Board of Examiners may, in accordance with the criteria specified in the Rules and Regulations and at the request of the student, extend the validity for a period to be specified by the Board itself.

4.7.3 The validity period referred to in paragraph 1 starts on 1 September of the academic year following that in which the mark was obtained or the exemption granted.

Article 4.8  Inspection and final evaluation

4.8.1 Students are entitled to view their marked examination for a period of 30 days following the publication of the results of a written examination.

4.8.2 During the period referred to in 4.8.1, students may inspect the examination questions and assignments, as well as the marking schemes used to mark the examination.

4.8.3 Students may request a feedback session on the marked examination. The opportunity for this is announced together with the examination results.

4.8.4 The Board of Examiners is authorised to decide whether the feedback session takes place in a group or individually.

4.8.5 The Board of Examiners determines where and when the feedback session takes place.

4.8.6 Students who are unable to attend the feedback session referred to in paragraph 4.8.3 due to circumstances beyond their control are granted another opportunity, if possible within the period referred to in 4.8.1.

Article 4.9  Exemption from examinations and/or practicals

4.9.1 At the student’s request and after consultation with the examiner in question, the Board of Examiners may grant the student exemption from one or more examinations or practicals if the student:

- has completed a component at a research university or university of applied sciences that is similar in content and level to the component for which the student is requesting exemption, or
- has demonstrated, through relevant work or professional experience, that he or she has acquired sufficient skills and knowledge in relation to the component in question, or
- has passed Pre-University College, in which case, the Board of Examiners determines the component(s) for which the exemption is granted.

4.9.2 If the exemption concerns components that belong to a minor, the Board of Examiners responsible first consults the Board of Examiners of the programme that provides the minor before deciding whether to grant an exemption.

Article 4.10  Final examination

4.10.1 The Board of Examiners awards a degree certificate when there is sufficient proof that the final examination has been passed.
4.10.2 As part of the final examination, the Board of Examiners is entitled to conduct its own evaluation of the knowledge, understanding and skills of the examination candidate and to assess the results.

4.10.3 The degree is only conferred once the Executive Board has declared that all procedural requirements (including the requirement to pay tuition fees) have been met. One degree certificate is be awarded for each programme. The degree certificate states that the programme was delivered by Leiden University.

4.10.4 Pursuant to the regulations referred to in Article 7.11, third paragraph, of the Act, a student who is entitled to graduate may ask the Board of Examiners to postpone graduation, as long as the student has not exceeded the maximum period of enrolment of four years for the programme in question.

4.10.5 This request must be submitted within five working days of the student receiving notification of his or her final examination results. In the request the student must indicate when he or she wishes to receive the degree certificate.

4.10.6 The Board of Examiners may also approve the request if rejecting it would result in a considerable injustice.

4.10.7 A supplement in Dutch or in English that conforms to the standard European Diploma Supplement format is attached to the degree certificate. In addition to the degree certificate, students are also issued with a translation of the degree certificate and a certificate in Latin.

**Article 4.11 The degree**

4.11.1 The degree of “Bachelor of Science” is awarded to those who have passed the final examination of the programme.

4.11.2 The degree certificate specifies which degree has been awarded.

**Article 4.12 Degree classification**

4.12.1 The student is awarded a mark for the final examination.

4.12.2 The final mark is based on the weighted average of the marks obtained for all examinations that form part of the final examination, with the exception of the examinations for which an exemption was granted or examinations for which the student only obtained a proof of attendance.

4.12.3 The weighted average of all marks is determined by multiplying the number of ECTS credits for each component by the mark awarded for this component, adding these together and then dividing the result by the number of credits earned.

4.12.4 Without prejudice to the provisions of 4.12.6 and 4.12.7, the degree certificate and diploma supplement include the ‘cum laude’ classification if the following conditions are met:
For the bachelor’s final examination:

- the weighted average for all components is 8.0 or higher;
- the mark for the bachelor’s thesis is 8.0 or higher;
- for full-time students: the bachelor’s final examination was passed within four academic years;
- for part-time students: the bachelor’s final examination was passed within six academic years.

4.12.5 Without prejudice to the provisions of 4.12.6 and 4.12.7, the degree certificate and the diploma supplement include the ‘summa cum laude’ classification if the following conditions are met:

For the bachelor’s final examination:

- the weighted average for all components is 9.0 or higher;
- the mark for the bachelor’s thesis is 9.0 or higher;
- for full-time students: the bachelor’s final examination was passed within three academic years.
- for part-time students: the bachelor’s final examination was passed within five academic years.

4.12.6 The Board of Examiners may also decide to award a distinction in other, exceptional cases, on the condition that the weighted average mark does not differ by more than 0.5 from the grades stipulated in the fourth and fifth paragraphs above. This may involve such considerations as the student’s development throughout his or her study programme, any exceptional performances on the part of the student in completing the final paper or thesis and any other relevant exceptional circumstances.

4.12.7 If a student has been subject to disciplinary measures as a result of irregularity, fraud or plagiarism, he or she is not awarded a distinction.

Chapter 5  Admission to the Programme 2017–2018

Article 5.1  Direct Admission

5.1.1 Direct admission to the programme is granted to any person who meets the requirements set out in Articles 7.24 and 7.25 of the Act, under the assumption that for the LUC, pursuant to Article 6.7 of the Act, the person must also meet the requirements included under Articles 5.2.1 and 5.2.2.

5.1.2 The regulations regarding admission to the bachelor’s programme are established in the Enrolment Regulations of Leiden University.8

5.1.3 In certain cases as defined in the Act, the Executive Board may deny admission by virtue of its powers under Article 7.28, first paragraph, second and third sentence, of the Act.

5.1.4 If on the basis of Article 7.53 of the Act, the Executive Board has determined a limited first enrolment for the programme, the procedure described in Articles 5.3.2 and 5.3.3 is applicable.

Article 5.2.1  Admission with propaedeuse from a university of applied sciences

The holder of a propaedeuse diploma from a university of applied sciences who is not in possession of a diploma as referred to in Article 7.24, first paragraph, of the Act or of a diploma that is considered on the grounds of the second paragraph to be at least equal to such a diploma either by virtue of the Ministry Regulations or by the Executive Board must demonstrate that he or she possesses the

8 The Leiden University Regulation Students Registration Tuition and Examination Fees
knowledge, understanding and skills required to successfully complete the bachelor’s programme. This can be demonstrated by means of the following:

- Mathematics at vwo level or a passing final grade in the written central state examination at the havo level.

Article 5.2.2  Equivalent qualifications

A person who is not in possession of a pre-university (vwo) diploma awarded after 2007, but who is nevertheless eligible for direct admission on the basis of the Act, may be required to take a test on the subjects referred to in Article 5.2.3.1 at the level of a vwo final examination for the profile that allows for direct admission.

Article 5.2.3  Further requirements and deficiencies

5.2.3.1 In accordance with the Regulations of the Minister of Education, Culture and Science of 3 April 2014, nr. 540459 regarding admission to higher education⁹, no additional entry requirements apply.

Article 5.2.4  Dutch and English languages

5.2.4.1 Holders of a diploma obtained outside the Netherlands meet the required adequate command of the Dutch Language if they have passed the examination level TUL advanced from the Dutch as a Second Language Course organised by Leiden University. An International School diploma or comparable international programmes provided in the Netherlands are considered to be diplomas obtained outside the Netherlands.

5.2.4.2 The Board of Examiners may, in special cases, grant exemption from the examination referred to in 5.2.4.1.

5.2.4.3 Students applying for the international version of the programme (IBP) are deemed admissible if they meet the following language requirements:

- The International English Language Testing System (IELTS). Minimum score of 6.5.
- The Test of English as a Foreign Language (TOEFL). Minimum scores are 570 (paper based) / 230 (computer based) / 90 (internet based).
- Cambridge Certificate in Advanced English (CAE: Grade A, B, or C) or Cambridge Certificate of Proficiency in English (CPE: Grade A, B or C).

Students with a Dutch vwo diploma, an English International Baccalaureate diploma, an EB diploma with English as language 1 or with an English diploma obtained in the US, Canada, New Zealand, Australia, Great Britain or Ireland are considered to have a sufficient command of the English language.

Article 5.2.5  Entrance examination

The entrance examination as referred to in Article 7.29 of the Act applies to the following subjects at the level determined by the department:

⁹ The official announcement of admission requirement
The Faculty Board confirms the student’s admission if he or she meets the entrance requirements stated above insofar as the maximum number of students that may be enrolled in the programme has not been exceeded.

Chapter 6  Student Counselling and Study Advice

Article 6.1  Student progress report

6.1.1 The Faculty Board keeps records of the results of individual students.

6.1.2 Students may inspect their results in the student progress system at any time.

6.1.3 From the second year of enrolment, the department asks all students to submit an annual study plan, indicating the examinations they intend to take, and the extracurricular activities relevant to the programme or recognised by the Executive Board in which they intend to participate.

Article 6.2  Introduction and student counselling

As referred to in the Regulation on the Binding Study Advice, the department must provide an introduction and counselling for all students who are enrolled in the programme, in order to familiarise them with their study options in the programme and elsewhere and to facilitate their progress in their studies.

Article 6.3  Study advice

6.3.1 In their first year of enrolment, all students are provided with advice on the continuation of their studies. The Board of Examiners is authorised by the Faculty Board to issue this study advice. For information on the requirements, the number of times the advice is issued, as well as the possible consequences of this advice, see the Leiden University Regulation on the Binding Study Advice that applies to the study year in question as well as 6.3.2.

6.3.2 The programme imposes additional requirements concerning components that students must have passed for the study advice referred to in 6.3.1: If a student fails to pass at least one of the following courses: Introduction to Research Methods and Statistics, Inferential Statistics, Experimental and Correlational Research, a negative binding study advice will be given.

10 The Leiden University Regulation on the Binding Study Advice
6.3.3 A binding negative study advice with refusal only applies to the programme and associated specialisations in which the student is enrolled. The binding study advice also applies to any bachelor's programme which shares the propaedeuse with the bachelor's programme.

6.3.4 Students may request an oral explanation of the study advice as well as information on their progress within or outside the Faculty and on any other possible education options.

Article 6.4 Supervision of the thesis/final paper/final report

6.4.1 The student draws up a plan for the final report together with the supervisor. This plan is based on the study load specified in the e-Prospectus for this component.

6.4.2 The plan referred to in 6.4.1 also specifies the frequency and manner of supervision.

Article 6.5 Professional sports

Students who play sports at a professional level are given the opportunity to adjust their study programme to their sporting activities wherever possible. The department determines who falls within this category in line with the guidelines drawn up by the Executive Board.

Article 6.6 Disability or chronic medical condition

Where possible, students with a disability or chronic medical condition are given the opportunity to adjust their study programme to the limitations resulting from their disability or chronic medical condition. The programme can be adjusted to the individual disability or chronic medical condition of the student in question, but this must not affect the quality or level of difficulty of the components or the programme itself.

Article 6.7 Study and internships abroad

Special measures will be taken for students who suffer from a demonstrable delay in their studies as a result of study or an internship abroad that has been approved by the Board of Examiners, in order to limit the delay.

Chapter 7 Transitional Provisions

Article 7.1 Provisions concerning students already enrolled in the programme

7.1.1 As of 1 September 2012, the OER apply for the duration of one year for students who enrol for the first time in the programme.

7.1.2 If components as referred to in Articles 3.1.1 and 3.2 of the OER that are applicable pursuant to 7.1.1 are no longer offered, the Board of Examiners specifies alternative components. These may be components that are offered by another institution.

---

11 The Leiden University Protocol on studying with a disability
Chapter 8  Final provisions

Article 8.1  Amendments

8.1.1 Amendments to these regulations are implemented by a separate order of the Faculty Board with the prior consent of the Faculty Council.

8.1.2 Amendments to these regulations which apply to a particular academic year will be implemented before the start of that year and published in the prescribed manner, unless earlier implementation of an amendment to the regulations is strictly necessary and in all reasonableness does not harm the students’ interests.

8.1.3 Amendments to these regulations may not adversely affect any prior decision pertaining to students taken by the Board of Examiners on the basis of these regulations.

Article 8.2  Publication

The department is responsible for publishing these regulations, the rules and guidelines set by the Board of Examiners and any amendment to these articles via the university website.

Article 8.3  Entry into force

These regulations enter into force on 1 September 2016.
Appendix 1: The courses in the Bachelor’s programme Psychology

Attendance is required for the courses with a practical. This is described in the course descriptions of these courses in the e-Prospectus. The assessment of these courses consists of the successful completion of the practical exercises, practical and work group assignments, and the successful completion of examinations and the bachelor’s thesis. Lectures can include information that may be tested upon during the examinations. If this is the case, it will be indicated in the e-Prospectus. The assessment methods are described in the e-Prospectus.

Art. 1. The first year (*propaedeuse*) includes the courses listed below; a total of 60 credits (EC):

<table>
<thead>
<tr>
<th>Courses</th>
<th>Level</th>
<th>Practical</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tutorial Academic Skills (including 8 hours as subject in experiments)</td>
<td>100</td>
<td>Yes</td>
<td>5 credits</td>
</tr>
<tr>
<td>Introduction to Psychology</td>
<td>100</td>
<td>Yes</td>
<td>5 credits</td>
</tr>
<tr>
<td>History of Psychology</td>
<td>100</td>
<td>Yes</td>
<td>5 credits</td>
</tr>
<tr>
<td>Psychology and Science</td>
<td>100</td>
<td>Yes</td>
<td>5 credits</td>
</tr>
<tr>
<td>Introduction to Research Methods and Statistics</td>
<td>100</td>
<td>Yes</td>
<td>5 credits</td>
</tr>

<td>5</td>
</tr>
</tbody>
</table>
Art. 2b. The student follows a minimum of 30 credits of specialisation courses within psychology; e.g. 3 specialisation courses. Please note: students can replace 1 specialisation course by 2 optional courses of 5 credits each offered by the section Methodology & Statistics (Appendix 1.2.c). The courses have lectures in English and work group sessions in Dutch and English. The Institute of Psychology offers the following courses:

<table>
<thead>
<tr>
<th>Courses</th>
<th>Level</th>
<th>Practical</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Interpersonal Professional Skills</td>
<td>200</td>
<td>Yes</td>

<td>Yes</td>
<td>15</td>
</tr>
</tbody>
</table>

Art. 2c. The 30 credits of ‘free choice’ of optional courses can be used for courses offered by the Institute of Psychology (see art. 2.b) or, with permission from the Board of Examiners, for courses offered by other institutions offering scientific higher education. Optional courses can be taken at the 100, 200, 300 or 400 level. However, at least 5 of the 30 optional credits must be taken at the 300 level. The language of instruction is English.

Appendix 4: The Pre-Master’s Programme

The Institute of Psychology offers in its pre-master’s programme the course Preparatory Statistics. This course is not a part of the regular bachelor’s degree programme.

<table>
<thead>
<tr>
<th>Title</th>
<th>Level</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Preparatory Statistics</td>
<td>300</td>
<td>5</td>
</tr>
</tbody>
</table>
Appendix 5: Transitional Provisions

1. Bachelor project in the third year. Old and new situation:

<table>
<thead>
<tr>
<th>Course and Examination Regulations 2015-2016</th>
<th>Course and Examination Regulations 2016-2017</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bachelor project 20 EC</td>
<td>Bachelor project 15 EC</td>
</tr>
</tbody>
</table>

Students, who have completed their Bachelor project in 2015-2016, have received 20 credits. Students who start their Bachelor project in 2016-2017 will receive 15 credits. If students cannot meet their study requirements with 15 credits, i.e. have not earned 180 credits in total, they have to fill up their deficiency with an elective of 5 credits.

The transitional provisions of 2015-2016 have terminated and are not applicable to the academic year 2016-2017.
