#### C. Additional requirements

Depending on the contents of the undergraduate programme that has been followed, the admissions committee can make additional requirements. The admissions committee requests that the applicant demonstrates competency from the following eight sub-fields:

Political Philosophy

Comparative Politics

International Relations

European Integration

Political Behaviour

Rational Choice

Dutch politics

Research Design and Measurement in the Social Sciences

The admissions committee will examine each individual case to determine whether such competency has been established based upon the education obtained previously.

1. Applicants for whom possession of competency from all sub-fields can be established may be considered for admission without additional requirements.
2. Applicants for whom competency from at least four of these sub-fields can be established may be considered for admission, pending demonstration of competency in the remaining sub-fields.
3. Applicants for whom competency in fewer than four of the sub-fields can be demonstrated based upon previous education may not be considered for admission to the Master of Science in Political Science programme. They must first demonstrate such competency before admission can be granted.
